

I

問 1	1	2	2	1	3	2	4	4
問 2	A resource-recycling society is a place where people don't waste things. They try to reuse things. The article says we need to make less clothes and use them for a long time. This is very important for our future.							

II

問 1	3	問 2	1	問 3	2	問 4	2	問 5	3
-----	---	-----	---	-----	---	-----	---	-----	---

III

1	English	2	month
3	university	4	library
5	peace	6	successful
7	traditional	8	unique

1	3	ran	2	1	had
3	1	go	4	1	seeing
5	1	which			

V

I think more students will go abroad to study in the future.

The first reason is that they can get better at languages. For example, students who study in the U.S. can improve their English. The second reason is that they can learn about different cultures. For instance, students living in Korea can understand Korean traditions. These experiences can change their ways of thinking and help them grow. For these reasons, I believe more students will choose to study abroad.
